The Honda TRX
Farmers swear by em' 'nover at em'

Stupid hurts
at HONDA

* Offer from 1 July to 30 September 2007. See your local dealer for terms and conditions. Excludes TRX90, TRX350 and sports models.

The Honda Agricultural TRX range is known and trusted for its superior performance, cutting edge features and good old fashioned value for money, and now also comes with a \$500 cash back offer!

From now until September 30, 2007, customers who purchase any of the TRX AG range (excluding the TRX90, TRX350 and/or sports models) qualify for the cash back deal, making it the perfect time to pick up a new workhorse.

With redesigned styling, purpose built, efficient engines and the next-generation Hondamatic "Hydrostatic" transmission, the new breed of Honda TRX 4-wheel motorcycles is second to none.

In Australia for instance, where conditions are amongst the toughest on earth, Honda ATVs are ranked as the number one sellers in their class including the TRX250TM, TRX350TM, TRX400FA and TRX500.

With nine models to choose from now on special, customers are sure to find the right machine for their needs, whether it be for serious labour on the property or simply for transport to that perfect fishing spot on a rare day off.

Based on the concept of "mass centralisation" these four wheel machines are built from the chassis to the drive train to the suspension and engine to offer the best handling possible.

Honda also understands that our equipment needs to keep working in order for your business to keep working. That's why a Honda TRX has fewer parts than our competitors. That means more reliability, with less servicing costs and down time.

For details, see your local Honda Dealer. For TRX specifications, please visit:
